

# Take Time to Remember

WAR

**WAR**

War is red for blood

War is a soldiers death

War is a death of a friend

War is the smell of gun powder

War is screaming sounds of people scared and dying

War is explosions of grenades

War tastes like smoke and fog

War is about the brave men and women

War is about the families who lost their loved ones

War is about the loud guns going off

War is remembering all those people who died for their country, Our Heroes!
